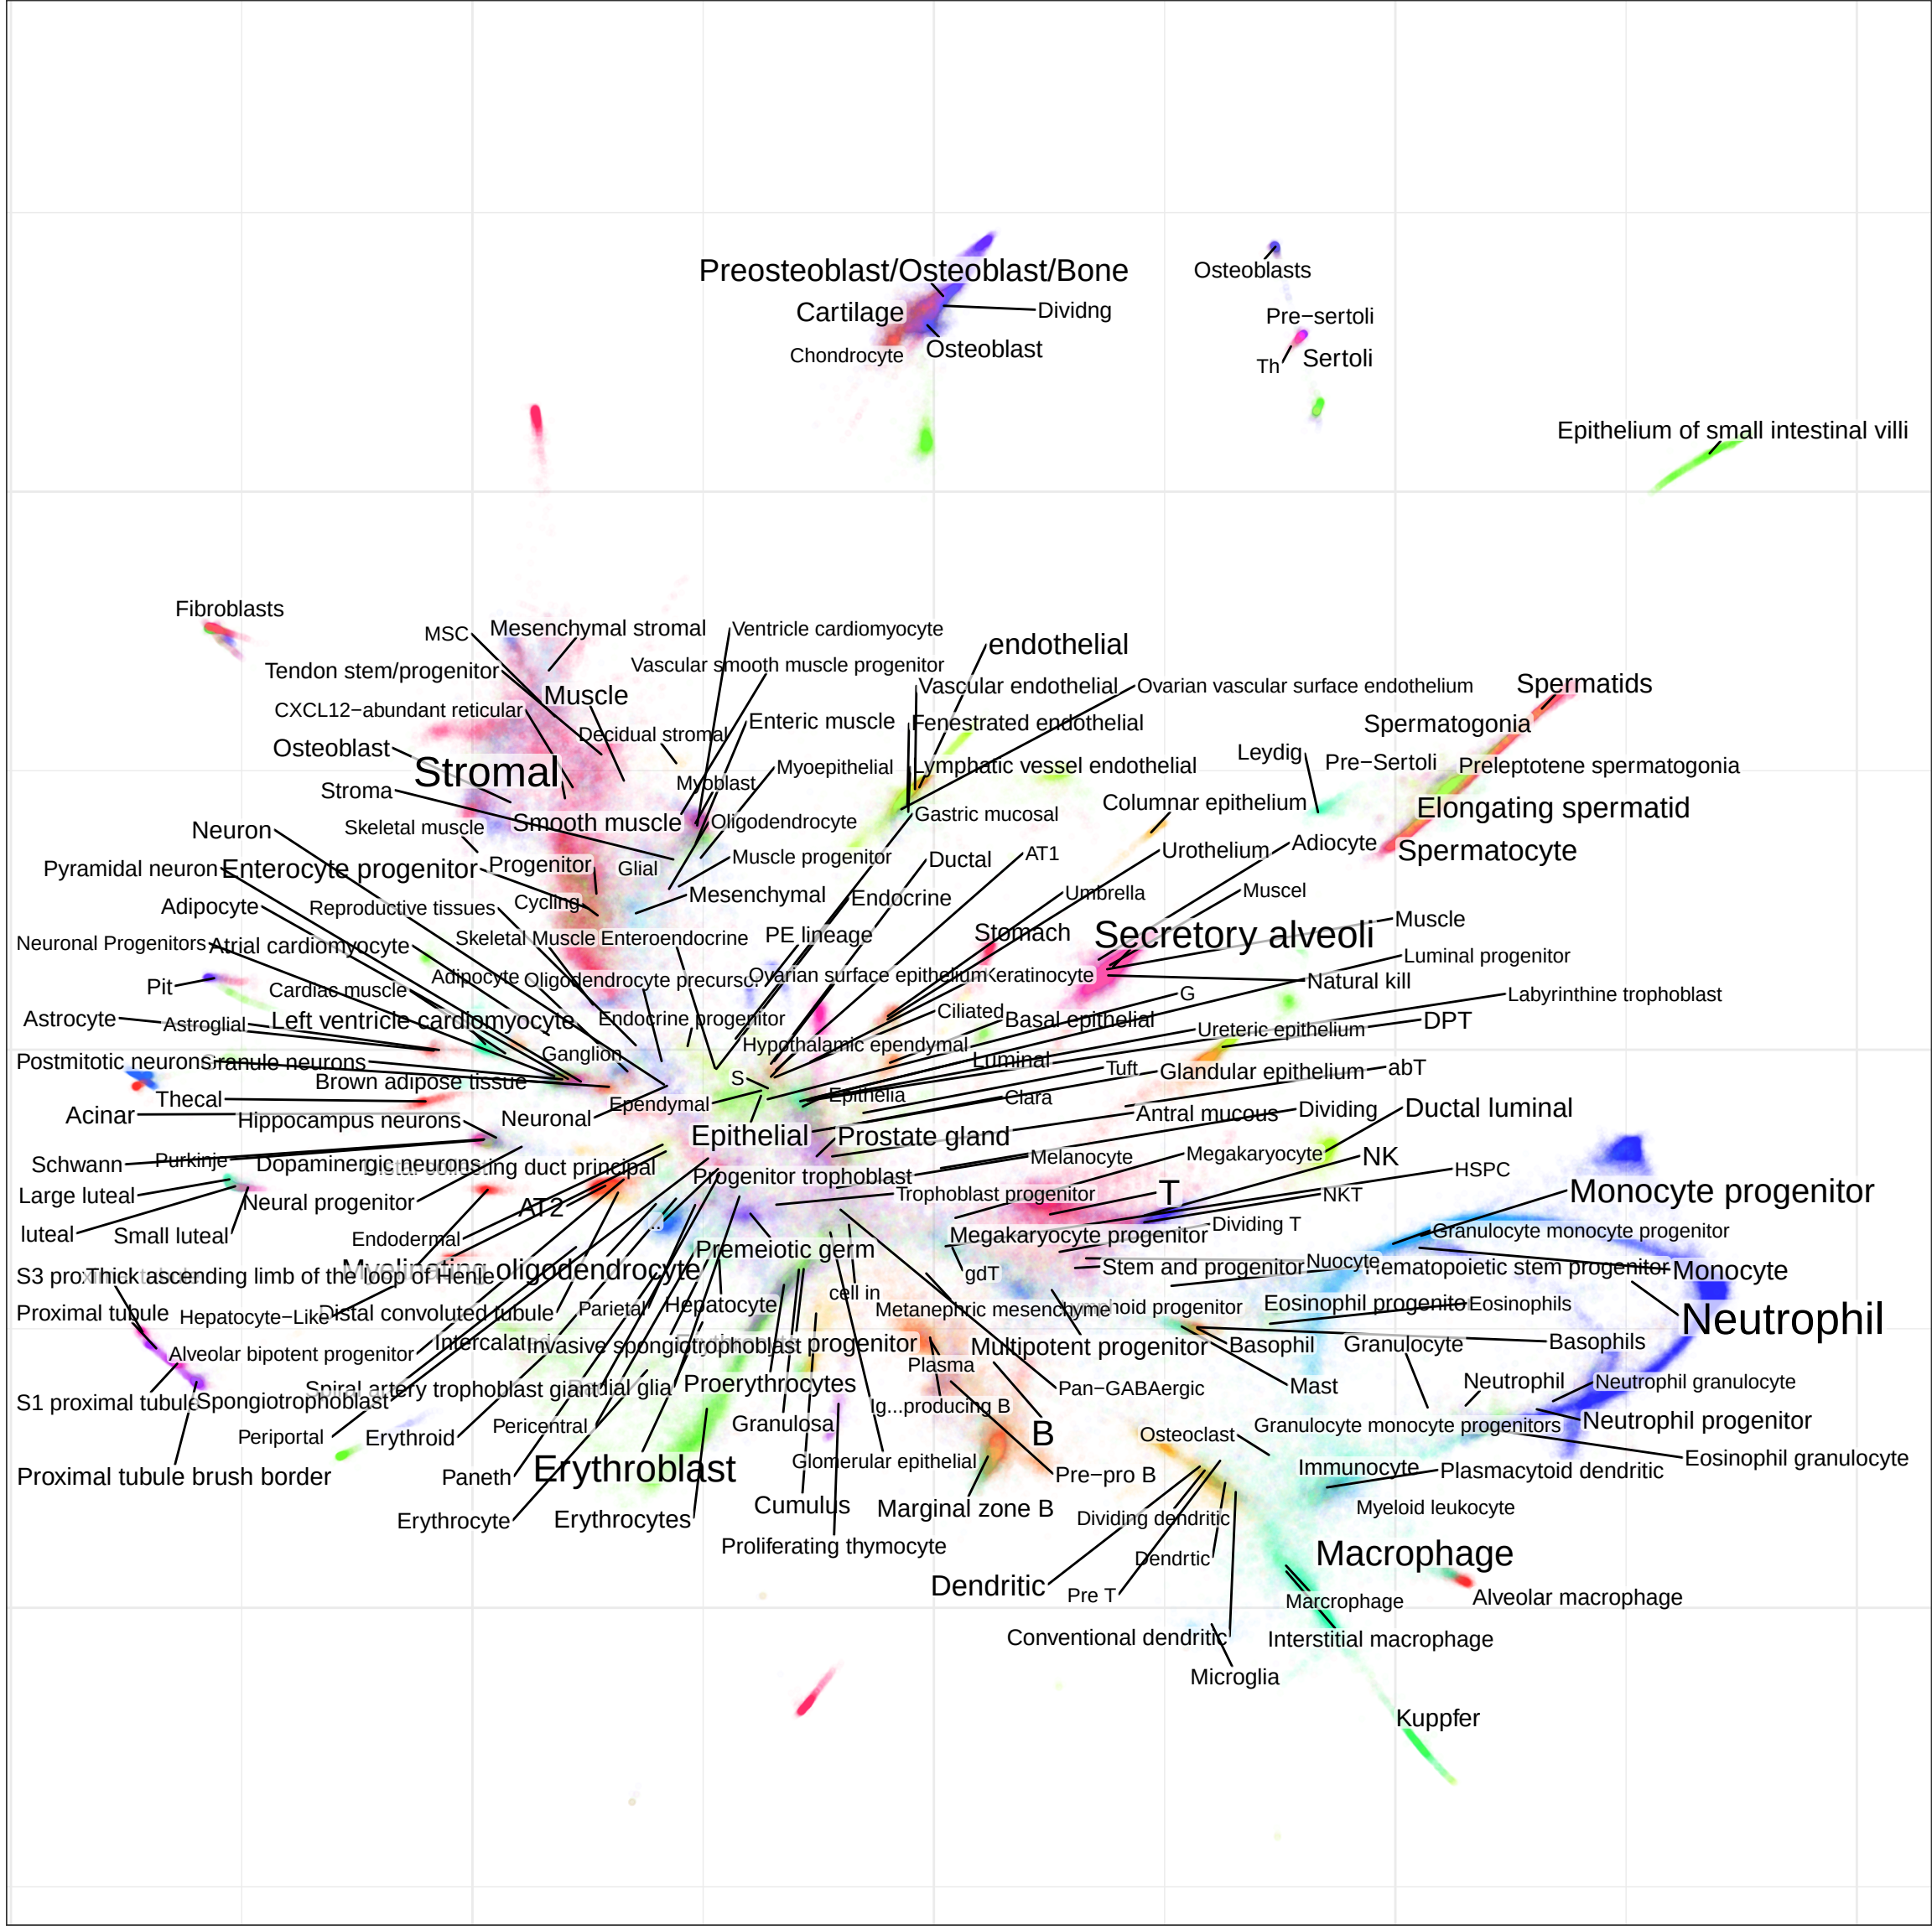
epithelial cell of large intestine
enterocyte of epithelium of large intestine
mesenchymal cell
basal cell
fibroblast
keratinocyte stem cell
mesenchymal stem cell of adipose
stromal cell
keratinocyte
mesenchymal stem cell
type B pancreatic cell
myofibroblast cell
pancreatic stellate cell
endothelial cell
endocardial cell
bladder cell
brain pericyte
lung endothelial cell
smooth muscle cell
microglial cell
large intestine goblet cell
neuroendocrine cell
mesangial cell
kidney capillary endothelial cell
epidermal cell
endothelial cell of hepatic sinusoid
skeletal muscle satellite cell
skeletal muscle satellite stem cell
basal cell of epidermis
pancreatic ductal cell
epithelial cell
Brush cell of epithelium proper of large intestine
cardiac muscle cell
oligodendrocyte
astrocyte
bladder urothelial cell
common lymphoid progenitor
ciliated columnar cell of tracheobronchial tree
oligodendrocyte precursor cell
Slamf1−negative multipotent progenitor cell
Bergmann glial cell
enteroendocrine cell
Slamf1−positive multipotent progenitor cell
immature T cell
pancreatic acinar cell
luminal epithelial cell of mammary gland
type II pneumocyte
duct epithelial cell
T cell
natural killer cell
pancreatic D cell
epithelial cell of lung
megakaryocyte−erythroid progenitor cell
mature natural killer cell
kidney loop of Henle ascending limb epithelial cell
pancreatic PP cell
regulatory T cell
immature natural killer cell
neuron
immature NK T cell
kidney collecting duct epithelial cell
pancreatic A cell
hematopoietic precursor cell
pre−natural killer cell
hepatocyte
erythrocyte
DN1 thymic pro−T cell
basophil
granulocytopoietic cell
epithelial cell of proximal tubule
stem cell of epidermis
mast cell
granulocyte monocyte progenitor cell
kidney proximal straight tubule epithelial cell
late pro−B cell
dendritic cell
Fraction A pre−pro B cell
promonocyte
granulocyte
erythroblast
early pro−B cell
professional antigen presenting cell
macrophage
monocyte
proerythroblast
lymphocyte
B cell
non−classical monocyte
kidney cell
immature B cell
classical monocyte
Langerhans cell
myeloid cell
leukocyte
precursor B cell
naive B cell
blood cell
Kupffer cell
alveolar macrophage



Preosteoblast/Osteoblast/Bone
Cartilage
Dividng
Chondrocyte
Osteoblast
Osteoblasts
Pre−sertoli
Th
Sertoli
Epithelium of small intestinal villi
Fibroblasts
MSC
Mesenchymal stromal
Ventricle cardiomyocyte
Tendon stem/progenitor
Vascular smooth muscle progenitor
endothelial
Muscle
Vascular endothelial
Ovarian vascular surface endothelial
Spermatids
CXCL12−abundant reticular
Enteric muscle
Fenestrated endothelial
Spermatogonia
Decidual stromal
Osteoblast
Stromal
Myoepithelial
Lymphatic vessel endothelial
Leydig
Pre−Sertoli
Preleptotene spermatogonia
Myoblast
Stroma
Gastric mucosal
Columnar epithelium
Elongating spermatid
Smooth muscle
Oligodendrocyte
Neuron
Skeletal muscle
Urothelium
Adiocyte
Spermatocyte
Pyramidal neuron
Enterocyte progenitor
Progenitor
Glial
Muscle progenitor
Ductal
AT1
Adipocyte
Reproductive tissues
Cycling
Mesenchymal
Endocrine
Umbrella
Muscel
Neuronal Progenitors
Atrial cardiomyocyte
Skeletal Muscle Enteroendocrine
PE lineage
Stomach
Secretory alveoli
Muscle
Pit
Adipocyte
Oligodendrocyte precursor
Ovarian surface epithelium
Keratinocyte
Luminal progenitor
Natural kill
Cardiac muscle
Astrocyte
Astroglial
Left ventricle cardiomyocyte
Endocrine progenitor
Ciliated
Basal epithelial
G
Labyrinthine trophoblast
Ureteric epithelium
DPT
Postmitotic neurons
Granule neurons
Ganglion
Hypothalamic ependymal
Luminal
Tuft
Glandular epithelium
abT
Brown adipose tissue
S
Thecal
Epithelia
Clara
Acinar
Hippocampus neurons
Neuronal
Ependymal
Epithelial
Prostate gland
Antral mucous
Dividing
Ductal luminal
Schwann
Purkinje
Dopaminergic neurons
Collecting duct principal
Progenitor trophoblast
Melanocyte
Megakaryocyte
NK
HSPC
Large luteal
Neural progenitor
AT2
Trophoblast progenitor
T
NKT
Monocyte progenitor
luteal
Small luteal
Endodermal
Megakaryocyte progenitor
Dividing T
Granulocyte monocyte progenitor
Premeiotic germ
Stem and progenitor
Nuocyte
Hematopoietic stem progenitor
Monocyte
S3 pro
Thick ascending limb of the loop of Henle
Myelinating oligodendrocyte
gdT
cell in
Metanephric mesenchyme
Eosinophil progenitor
Eosinophils
Neutrophil
Proximal tubule
Hepatocyte−Like
Distal convoluted tubule
Parietal
Hepatocyte
Alveolar bipotent progenitor
Intercalated
Invasive spongiotrophoblast progenitor
Multipotent progenitor
Basophil
Granulocyte
Basophils
Plasma
Spiral artery trophoblast giant cell
Proerythrocytes
Pan−GABAergic
Mast
Neutrophil
Neutrophil granulocyte
S1 proximal tubule
Spongiotrophoblast
Ig...producing B
Granulocyte monocyte progenitors
Neutrophil progenitor
Periportal
Erythroid
Pericentral
Granulosa
B
Osteoclast
Eosinophil granulocyte
Proximal tubule brush border
Paneth
Erythroblast
Glomerular epithelial
Pre−pro B
Immunocyte
Plasmacytoid dendritic
Erythrocyte
Erythrocytes
Cumulus
Marginal zone B
Myeloid leukocyte
Dividing dendritic
Proliferating thymocyte
Dendrtic
Macrophage
Dendritic
Pre T
Marcrophage
Alveolar macrophage
Conventional dendritic
Interstitial macrophage
Microglia
Kuppfer
