ciliated columnar cell of tracheobronchial tree
alveolar macrophage
monocyte
classical monocyte
non−classical monocyte
myeloid cell
leukocyte
blood cell
dendritic cell
Kupffer cell
kidney cell
macrophage
Langerhans cell
granulocyte
B cell
lymphocyte
naive B cell
precursor B cell
professional antigen presenting cell
immature B cell
early pro−B cell
endothelial cell
lung endothelial cell
kidney capillary endothelial cell
promonocyte
mast cell
Fraction A pre−pro B cell
basophil
granulocyte monocyte progenitor cell
late pro−B cell
pre−natural killer cell
erythroblast
endocardial cell
endothelial cell of hepatic sinusoid
Brush cell of epithelium proper of large intestine
stem cell of epidermis
megakaryocyte−erythroid progenitor cell
regulatory T cell
DN1 thymic pro−T cell
erythrocyte
Slamf1−negative multipotent progenitor cell
immature NK T cell
proerythroblast
brain pericyte
duct epithelial cell
neuroendocrine cell
enteroendocrine cell
natural killer cell
mature natural killer cell
myofibroblast cell
luminal epithelial cell of mammary gland
type II pneumocyte
immature T cell
immature natural killer cell
smooth muscle cell
skeletal muscle satellite cell
mesangial cell
epithelial cell
epithelial cell of lung
bladder urothelial cell
T cell
skeletal muscle satellite stem cell
pancreatic ductal cell
Slamf1−positive multipotent progenitor cell
pancreatic stellate cell
basal cell of epidermis
hematopoietic precursor cell
common lymphoid progenitor
granulocytopoietic cell
mesenchymal stem cell
pancreatic A cell
bladder cell
cardiac muscle cell
pancreatic PP cell
stromal cell
mesenchymal stem cell of adipose
epithelial cell of proximal tubule
fibroblast
basal cell
keratinocyte stem cell
microglial cell
kidney proximal straight tubule epithelial cell
keratinocyte
epidermal cell
pancreatic D cell
type B pancreatic cell
Bergmann glial cell
mesenchymal cell
pancreatic acinar cell
epithelial cell of large intestine
neuron
enterocyte of epithelium of large intestine
kidney collecting duct epithelial cell
astrocyte
hepatocyte
large intestine goblet cell
kidney loop of Henle ascending limb epithelial cell
oligodendrocyte precursor cell
oligodendrocyte
